Commencement of building Duyen Hai Power Center Port

By Travinh.gov.vn, 23 Apr 2013

On April 21, 2013, at Dan Thanh commune, Duyen Hai district, Tra Vinh, Vietnam Electricity held commencement of building Duyen Hai Power Center Port ceremony. Mr. Duong Hoang Nghia – Permanent Deputy Secretary of Tra Vinh Party Committee, Chairman of Tra Vinh, Vice Chairmen of Tra Vinh People’s Committee, and leaders of some related departments attended the ceremony.

The construction belongs to general planning of Duyen Hai Power Center. When it is done, it will provide 12 million tons of coal/year and 100.000 tons of oil/year for 3 thermal power plants of Duyen Hai Power Center and a widen plant. The total water surface area of the construction is 427 hectares with 2 coal ports for 30.000-ton ship and an oil port for 1000-ton ship. Northern dike is 3.9 Km long. It also consists of coal loading and unloading system, technical infrastructure for power, water, communications...

Total invested capital for Duyen Hai Power Center Port is about 200 million USD. China Communications Construction Company LTD is the contractor. It is expected to finish within 32 months.

Addressing at the ceremony, Vice Chairman Nguyen Van Phong promised that Tra Vinh would coordinate with investor and related units to finish the construction on time.
